

ALLEGION™

ADSYSTEMS™
HIGH PERFORMANCE DOORS

School Solutions.
Secured.

Safer Schools Start Here.

Safe, welcoming, and effective learning environments start with the right building materials. **Fire-rated glass and framing, high-performance sliding door systems, and insulating glass units with integrated cord-free louver technology** bring safety, security and design flexibility to K-12 schools.

Our innovative solutions meet rigorous code requirements, while enhancing natural light, visibility, and energy efficiency. Create spaces that are sleek, safe, and student-centered.

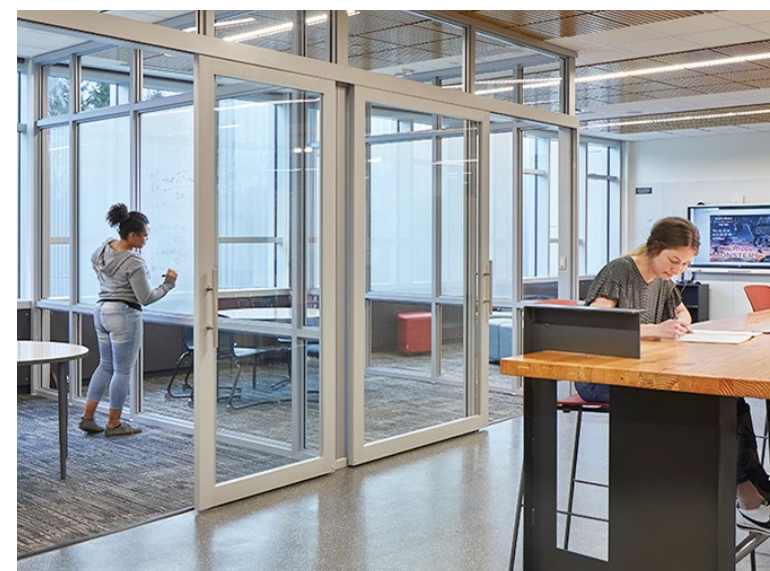

Safer Schools: Making The Grade

For nearly 50 years, Technical Glass Products (TGP) has been the one source with many solutions to bring light, safety, and design flexibility to schools and institutions across North America. As the #1 most specified fire-rated glass company in North America,* TGP helps you balance stringent code requirements with the need for open, inspiring learning environments.

Products

- **FireLite®**
Exclusive North American supplier of UL-classified and labeled FireLite® ceramic glazing. Clear and wireless products that block fire and smoke and can meet impact-resistance requirements.
- **Pilkington Pyrostop®**
UL-classified, impact safety-rated transparent wall panels that block fire, smoke, and heat transfer; available with options for forced-entry and ballistic resistance.
- **Fireframes®**
A family of UL-classified framing systems available in steel, aluminum, wood, curtain wall, and glazed floor applications.
- **TGProtect® FR System**
Full-lite, fire-rated door system certified to forced-entry standards.

*TGP ranked the #1 specified fire-rated glass company in North America among architectural specifiers, as reported by ConstructConnect, Inc., 2014–2024.

We've Done Our Homework For Educational Facility Design

Since 2009, AD Systems has designed and manufactured sliding door systems that save space, improve acoustics, and offer custom design options. With more than 150,000 systems installed worldwide, AD Systems makes a difference in your design as the go-to resource for today's learning environments, whether through privacy features, fire and smoke ratings, or advanced customization.

Products

- **OfficeSlide™ Sliding Door System**
Surface-Mounted Sliding Doors with Integral Sidelites, Transoms, etc.
- **InsetSlide™ Sliding Door System**
Inset-Mounted Sliding Doors with Integral Sidelite.
- **FireSlide™ Sliding Door System**
Surface-Mounted, Fire-Rated Sliding Doors.
- **AutoMotion™ Sliding Door System**
Automatic Surface-Mounted Sliding Doors.
- **XtendSlide™ Sliding Door System**
Surface-Mounted or Inset-Mounted Telescoping Sliding Doors.
- **Custom Solutions**
We work collaboratively with you to meet job-specific requirements and designs.

Making Our Schools Safer

Unicel Architectural has been innovating high-performance glazing and building envelope systems since 1964, helping you create spaces where light, comfort, and safety come together. From patented Vision Control® insulating glass units with integrated louvers to timber curtain walls, skylights, and ViuLite® integrated blinds, we deliver products that optimize natural light, enhance energy efficiency, and support privacy and safety. With a legacy of engineering excellence and custom craftsmanship, Unicel Architectural continues to redefine what's possible in educational building design.

Products

- **Vision Control®**
Door and window design solution featuring insulating glass units with operable, cordless louvers to enhance privacy, sound attenuation, hygiene and security in educational facilities. Vision Control has passed the AAMA 501.8 Behavioral Health Tests for 2000 ft-lbs of Human Impact on both Interior and Exterior applications.
- **Timber Curtain Wall**
Beyond timeless elegance and unmatched visibility, timber curtain walls provide superior construction features in terms of occupant comfort, durability and environmental sustainability. Enjoy greater thermal insulation, wind resistance, and air tightness, along with larger spans and cleaner sightlines.

About Allegion

At Allegion (NYSE: ALLE), we design and manufacture innovative security and access solutions that help keep people safe where they live, learn, work and connect.

We're pioneering safety with our strong legacy of brands like CISA®, Interflex®, LCN®, Schlage®, SimonsVoss®, Von Duprin®, Technical Glass Products, AD Systems and Unicel Architectural. Our comprehensive portfolio of hardware, software and electronic solutions is sold around the world and spans residential and commercial locks, door closer and exit devices, steel doors and frames, access control and workforce productivity systems.
