

THE INDUSTRY'S FIRST FIRE-RATED WOOD SLIDING DOORS

Introducing FireSlide™, the ultimate blend of modern design and fire safety. With a sleek sliding door aesthetic and a UL 10B fire rating of up to 45 minutes, this innovative system turns up the heat on your fire-rated designs. >>>

AD Systems has blazed a new trail with FireSlide™, an award-winning, surface-mounted, top-hung sliding door system. These single-leaf doors combine a clean, contemporary look with space-saving functionality, acoustic performance, and hardware versatility. Built to protect against fire without compromising design, FireSlide is a reliable solution for modern spaces.

FIRESLIDE™

STANDARD FEATURES

- | | |
|---|--|
| Achieves a 45-minute fire rating, tested to UL 10B standard | Smooth silicone gasketing on the perimeter jamb frame |
| Space-saving design saves significant space when compared to a swing door - up to 30 square feet | Durable floor door guide |
| Acoustic seals on three sides to help enhance privacy and reduce indoor noise | High quality paint finish for a polished look that is easy to touch up |
| Heavy-duty, top-hung roller systems for smooth operation | No visible fasteners on the end caps for a cleaner, modern aesthetic |
| Design features self-closers, soft-close dampener tested to over 150,000 cycles, and self-latching hardware to meet code requirements | Clear opening sizes up to 40-1/2" by 83-3/8" |
| Resilient aluminum perimeter frames protect wall opening and resist impact | Available with up to a 100in ² vision panel of FireLite® NT (3/16", 5 mm) fire-rated, impact-safety rated glass ceramic by Technical Glass Products (TGP) |

HARDWARE OPTIONS

- Self-latching hardware
- Electric strike for access control integration

DECORATIVE OPTIONS

- Flush wood door with a range of laminate and natural veneer options
- High quality paint for uniform finish, in standard silver or any custom color
